

QDialog

FORM_CLASS

DsgTools.PostgisCustomization.create
DatabaseCustomization.CreateDatabase
Customization

```
graph BT; A["DsgTools.PostgisCustomization.create<br/>DatabaseCustomization.CreateDatabase<br/>Customization"] --> B[QDialog]; A --> C[FORM_CLASS];
```

The diagram illustrates a class hierarchy or association. At the bottom, a gray rectangular box contains the text 'DsgTools.PostgisCustomization.create', 'DatabaseCustomization.CreateDatabase', and 'Customization' on three separate lines. Two blue arrows originate from the top edge of this box. The left arrow points to a white rectangular box labeled 'QDialog'. The right arrow points to a white rectangular box labeled 'FORM_CLASS'.
